

Tipperary Grass Seed Mixtures

Our 2023 Top Varieties

AberPlentiful: No.1 late tetraploid variety for spring growth and total yield.

Nashota: High digestibility with exceptional 5 star grazing utilisation. Excellent spring growth. Very high groundcover and persistency.

Callan: No.1 late diploid for grazing utilisation and spring growth.

AberClyde: No.1 variety on PPI 2023. Excellent for quality and yield.

(L) = Late (I) = Intermediate

Tipperary Grass No 4A GroQuik® Dressed

Grazing / Late Silage

4.0 kgs	Nashota Tet perennial ryegrass (L)
4.0 kgs	AberPlentiful Tet perennial ryegrass (L)
3.0 kgs	Callan/Bowie perennial ryegrass (L)
1.0 kgs	AberSwan/Iona/Dublin white clover
12.0 kgs	

Tipperary Grass No 4 GroQuik® Dressed

Grazing / Late Silage

3.0 kgs	AberPlentiful Tet perennial ryegrass (L)
3.0 kgs	Nashota Tet perennial ryegrass (L)
5.0 kgs	Callan perennial ryegrass (L)
0.6 kgs	Iona/Liflex white clover
11.6 kgs	

Tipperary Grass No 3A GroQuik® Dressed

Silage / Grazing

3.0 kgs	AberClyde Tet perennial ryegrass (I)
3.0 kgs	Nashota Tet perennial ryegrass (L)
2.0 kgs	AberWolf perennial ryegrass (I)
3.0 kgs	Callan perennial ryegrass (L)
0.5 kgs	Dublin/AberSwan white clover
0.5 kgs	Red clover
12.0 kgs	

Tipperary Grass No 3 (No Clover) GroQuik® Dressed

Cut Silage / Grazing

3.0 kgs	AberClyde Tet perennial ryegrass (I)
3.0 kgs	Nashota Tet perennial ryegrass (L)
4.0 kgs	Callan perennial ryegrass (L)
2.0 kgs	AberWolf perennial ryegrass (I)
12.0 kgs	

Tipperary Grass Multicut Hybrid <i>GroQuik® Dressed</i>	
4.0 kgs	Bannfoot hybrid ryegrass
3.5 kgs	Gala/Rusa hybrid ryegrass
0.5 kgs	White/Annual clover blend
4.0 kgs	Red clover
12.0 kgs	

Tipperary Grass Multispecies Mixture <i>GroQuik® Dressed</i>	
3.0 kgs	AberPlentiful Tet perennial ryegrass (L)
2.1 kgs	Nashota Tet perennial ryegrass (L)

25%	Chewing fescue
21%	Slender fescue
17%	Strong creeping red fescue
4%	Browntop bent
12.0 kgs	

GROQUIK® SEED STIMULANT INCLUDED

All of our **Tipperary Grass Seed Mixtures** are treated with our unique biological seed stimulant, **GroQuik®**. Benefits sustained long beyond sowing and germination.

- Improves seedling establishment.
- Accelerates germination and root growth in both grasses and clover.
- Improves herbage productivity.
- Increases lifetime production.
- Delivers uniform establishment even under difficult growing conditions, such as cold wet soil when seeds are slow to develop and are prone to damping off diseases. In dry soil, GroQuik® gives the young seedling the extra boost, enabling growth.
